

Fort Worth Museum of Science and History

www.fortworthmuseum.org
817-255-9300
1600 Gendy Street, Fort Worth 76107

Dinosaurs in your own backyard? DinoLabs and DinoDig® exhibitions tell the story of dinosaurs discovered in Texas. You can dig for artifacts in a dig site replica, and meet full articulations of dinosaur skeletons and life size models including *Paluxysaurus jonesi*, the State Dinosaur of Texas, and *Acrocanthosaurus* and *Tentosaurus dossi*.

Dinosaur Valley State Park

www.glenrosetexas.net
254-897-3081 or 254-897-4588
1629 Park Road 59, Glen Rose, 76043

Glen Rose is known as the “Dinosaur Capital of Texas.” One step into the 113 million year old dinosaur footprints and you’ll see why. With some of the best preserved dinosaur tracks in North America, this paleontological find is an important clue to how and where dinosaurs walked.

Dinosaur World

www.dinoworld.net
254-898-1526 or 254-897-3081
1058 Park Road 59, Glen Rose, 76043

Located just outside Dinosaur Valley State Park, Dinosaur World features over 100 life-size dinosaur models, nestled among a lush assortment of native vegetation, so believable that some visitors claim to see them moving! Children will love the fossil digs where they can dig for and keep up to 3 real fossils.

Bosque Museum

www.bosquemuseum.org
254-675-3845
301 South Avenue Q, Clifton, 76634

The Horn Shelter, discovered in Bosque County, is a rare 11,200 year old Paleo-American archeological site where two skeletons and an array of burial goods were found. A replica of the Horn Shelter complete with a burial, reproduced burial goods, excavation exhibit and facial reconstruction can be seen at the Bosque Museum.

Mayborn Museum Complex

www.baylor.edu/mayborn
254-710-1110
1300 S. University Parks Dr., Waco, 76706

Travel through millions of years by exploring ancient fossils of Central Texas at Baylor University’s Mayborn Museum Complex. Exciting and interactive exhibits invite visitors to touch a palm tree stump from the Tertiary Period and see one of the largest fossil marine turtles found in the United States.

The Waco Mammoth Site

www.wacomammoth.com
254-750-7946
6220 Steinbeck Bend Road, Waco, 76708

In 1978, two men stumbled upon a bone near the Bosque River. A lost world was discovered! The site features a climate-controlled dig shelter and a suspended walkway that provides an overhead view of several specimens, including a bull mammoth and a camel that lived approximately 68,000 years ago.

PREHISTORIC TEXAS

DINOSAURS, MAMMOTHS & ANCIENT TEXANS

Bell County Museum

www.bellcountymuseum.org
254-933-5243
201 N. Main St., Belton, 76513

The award-winning Bell County Museum features a permanent interactive exhibit on the Gault Site that offers an in-depth look at this important active excavation through dynamic interactive areas, informational text, and the website, www.texasbeyondhistory.net. Call ahead to see about opportunities for your young ones to “excavate” in our simulated archeology pits!

The Gault Site

www.gaultschool.org
512-245-8734
3451 FM 2843 Florence, 76527

The Gault Site is one of the largest excavated sites of the Clovis culture (13,500 years ago) and a Texas State Archeological Landmark. Gault has more than 2 million artifacts, some of the earliest art and the oldest architecture in North America. Research continues and tours/speakers can be arranged.

The mission of the Prehistoric Texas Education Initiative is to promote knowledge, appreciation, & tourism surrounding the rich prehistoric heritage of the Central Texas Region.

Sponsored by:

- Bell County Museum • Belton Area Chamber of Commerce
- Bosque Museum • City of Clifton • City of Florence
- City of Glen Rose • City of Waco • Dinosaur World
